From Harvest Time to Harvest Time

MESSAGE OF THE ACTING PRESIDENT

HARRY B. HIRSH

TO

THE 27th ANNUAL HARVEST PILGRIMAGE

October 12, 1924

The fiscal year of The National Farm School ends with the month of April. It has been the custom, however, for the President to present a report reviewing the work of the School at the time of the Harvest Pilgrimage in October.

Speaking for the directorate, we are very happy to report that the year has been a wonderful one; full of stimulation, encouragement and accomplishment.

The latter may be properly classified under the heads of Educational, Plant Development, and Financial.

Educational

Class and field instruction in the Fall of 1923 were brought to a successful conclusion. Both the practical and theoretical student work and results were the best in the School's history. The graduating class of February, 1924, was small in number (15), but high in quality. There were over 800 applications for the services of the 15 boys. The seniors and post-graduates went out to good, fairly paid positions.

Due to delays beyond our control, or the control of our contractor in the completion of the new dormitory, the new freshmen class could not be housed therein until the end of May. After waiting until April 1st, it was found necessary to install the new class in temporary quarters in Lasker Hall and some of the other buildings.

Sixty-three boys, from all sections of the country, the largest class ever admitted, were then entered. The mental and physical calibre of these boys and their attitude toward farm life were very gratifying. In former years a considerable number of freshmen dropped out during the first six months probation period. The record of the present freshman class in this respect has been

exceptional. Except the few who had to leave for family and economic reasons, these new boys have stood the acid test of hard physical work and long hours in a strange environment remarkably well.

Although field work was delayed during April and May by the continual rains, an increased acreage was cultivated. The dairy, horticultural, poultry and other departments were operated to capacity, which not only provided the necessary training for our students, but produced substantial crops and products as well.

Too much praise cannot be given to Mr. Grant Wright, Chairman of the Committee on Farm Operations, for his fine, intensive work. Upon his election to the Board he surveyed the equipment of our various farms, and found it very inadequate. Month after month, through his influence and work, he has increased this part of our plant largely through gifts from manufacturers of farm machinery. With a broad vision and keen insight, he has brought his long years of experience and wisdom to the problem of a machinery program for the School, which is bound to be epoch-making. The School is deeply indebted to him. His enthusiasm and labor have, indeed, been inspiring.

With the completion of Ulman Hall, there also came the gift of the Hibbs Farm from our friend and benefactor, Mr. Abraham Erlanger. These lands previously under lease by the School were, therefore, ready for permanent development. This has been started this season.

Founder's Day on June 1st was a largely attended, joyful occasion. The dedication of Ulman Hall, the laying of the cornerstone of the Krauskopf Memorial Library, which is to be a tribute of our love and esteem for the sainted founder of this institution, the notable addresses of Dr. John M. Thomas, of Pennsylvania State College, Mr. Abraham Erlanger, Mr. Jas. A. Pratt, of The Williamson Trade School, Judge John M. Patterson, and others will make the day live long in the School's history.

Our faculty has been augmented by a social and athletic governor for Ulman Hall; by the promotion of Mr. Walter J. Groman as instructor of farm machinery, and by the return of Miss Rebecca Churchman, whose influence for years on the students has been very uplifting, as librarian.

Despite the continued unfavorable weather conditions, the instruction and field work during June, July and August proceeded in an intensive way. A plot and project system of field instruction was inaugurated by Dr. Bernhard Ostrolenk, the Di-

rector of the School, and this, too, is a step forward in our curriculum. The faculty, encouraged by Dr. Louis Nusbaum, Chairman, and Mr. Maurice Fels of the Educational Committee, have given it their hearty co-operation. Its success is assured.

Interspersed with the daily routine, there have been gatherings—agricultural, athletic and social—which have enhanced the knowledge and pleasure of our students and faculty. Our sincere thanks are due to the men and women who helped to make those events so successful.

Memorable visits to the School were made by Israel Zangwill, Aaron Sapiro and a number of prominent educators from the University of Pennsylvania and other colleges.

The social life within the School has also been developed. With the occupancy of Ulman Hall a new spirit of fraternity among the students has been created. In retrospect then, the year has been, educationally, the best in our history. It presages a new era of student accomplishment.

These results were effected only through the application and devotion of our able Director, Dr. Ostrolenk, and each member of the faculty.

Plant Development

Contemporaneously with this educational work, the physical plant of the School has been vastly enlarged, altered and repaired. Briefly, the building of Ulman Hall; the Krauskopf Memorial Library Building; the new sewage disposal plant; the alteration of Segal Hall into a modern school building; two new heating plants, one to serve four buildings and the other for our greenhouses; painting and repairs to our older buildings have been successfully concluded.

These, besides involving expenditures of over $250,000, represent the intensive thought and work of Mr. Herbert D. Allman, Chairman of our Building Committee; his associates, particularly Mr. Leon Rosenbaum; our architects, Messrs. Sauer and Silverman; our engineers, Messrs. Albright and Mebus; our contractors, Messrs. Hughes and Foulkrod; Mr. John S. Bailey, and our Director.

The planning and supervising of these additions, built for strength and permanency, represent a contribution of time and devotion which it is impossible to appraise. Our grateful thanks are due to them all.

Financial

Entering upon its second quarter century and while yet under the guidance of Dr. Krauskopf, the School adopted a comprehensive program of development.

In addition to the completed buildings, this plan included a modern central barn and dairy building in which to house our valuable herd and give proper instruction in dairying, cheese-making, etc.

Our twenty-fifth year Jubilee Committee has been kept alive to carry out this financial program. During the past year it has functioned 100 per cent. under the chairmanship of Mr. Herbert D. Allman, with the notable assistance of Mr. I. H. Silverman, our Treasurer; Mr. Jos. H. Hagedorn and Mr. Alfred M. Klein, Chairman of our Budget Committee.

These men have given an enormous amount of time to raising and budgeting the large sums it has been necessary to procure and expend for the School. On the one hand, there was the urgent need of a properly equipped plant of buildings, machinery and staff that would provide up-to-date instruction in an industry, itself in process of radical changes and modernization, and on the other hand, there was the prohibitive cost of building.

When the campaign in New York City, about to be started with the co-operation of Mr. Herbert H. Lehman, Mr. Abraham Erlanger and others, shall have been successfully completed, the new barn, machinery equipment and graduates' aid fund, together with a proper addition to our endowment fund will be in hand, and the jubilee program completed.

The large additions and the progress of the past year have been due to the enthusiastic moral and financial support both from without and within the Board.

Mention was made at our June gathering of the wonderful benefactions that came to us from the Estate of Rosetta M. Ulman; the gift of the $20,000 Hibbs Farm and tractors from Mr. Abraham Erlanger; the $25,000 gift from Mr. Henry L. Frank, of Chicago, for our endowment fund; the bequest of Mr. David Winternitz, of Las Vegas, New Mexico, which will ultimately yield $36,000.

In addition, there is a large prospective bequest from Mr. Julius Janowitz, of New York City; $3,000 from the Estate of Mr. Adolph Boskowitz, New York; $2,500 from the Estate of Mr. Samuel Lowenstein, Philadelphia; and many others that will be shown in detail in the Year Book.

To meet the increased cost of operating the School with the larger student and faculty membership, we were given much needed help by our old friends, the Baron de Hirsch Fund, the Federation of Jewish Charities of Philadelphia, and of other cities, and by the State of Pennsylvania.

Our directorate, too, in addition to their liberal contributions to the Jubilee Fund, have added numerous gifts. The mere mention of the names of Messrs. Charles Kline, of Allentown, Grant Wright, etc., recall the many meetings where needed moneys or equipment were immediately donated.

Indeed, the devotion of the men and women of the directorate has been a constant source of wonder and inspiration. Month after month it has manifested itself in a way that must rejoice the spirit of Dr. Joseph Krauskopf. The contagion of that spirit has spread to all parts of the land. Broad-minded men and women of all sections, by their support and commendation, have given our cause new impetus during the past twelve months.

Verily, the cycle of harvest time to harvest time has been one of deeper rooting and growth. In our prayers of gratitude for this devotion and support, we ask for new strength and wisdom to carry on the work to greater efficiency and to a higher goal. As to the future.

This is, indeed, a day of rejoicing for all who strove for the return of the time when prosperity and national safety would again depend upon the farming industry. It seems almost like a miracle come to pass. A year ago agriculture was in the throes of adversity and despair. Farmers by the thousands had for three or four years deserted their lands. Legislation by Nation and States had been discussed and passed to remedy the situation.

A new immigration law shutting off the farmers of other lands was on the books. The stream citywards was a veritable torrent. Even yet it is dangerously large. Socialistic and confiscatory remedies striking at the foundations of our Constitution and liberties have been proposed. Almost overnight a transition came and once more we stand upon firm ground, at the dawn of a new era of prosperity, with agriculture as the foundation, and simply through the operation of the laws of nature and political economy.

But the advance to this new and brighter position brings farming face to face with radical new requirements. The successful farmer of today, tomorrow and the years to come must be one who through scientific training and education will make

not two blades of grass, but a whole sheaf, grow where one grew before.

New forces and knowledge are playing star parts in a mighty drama of argicultural evolution. Electricity, now at the farmer's door, will surmount the mightiest obstacles of nature. Ploughing, milking, spraying and all the other long, tedious and racking operations are about to be changed, and at a single wave of this magic wand will emancipate the farmer and his family from their never-ending days of toil. New and wonderful machinery, a better knowledge of chemistry will conjure new fertilizers from the air, the rocks and the earth, itself. Intensification and diversification will yield ample rewards to the experts and pioneers in these new fields. *The man who does not know cannot survive.* Like other wondrous ways of a Higher Power, this revolution comes as salvation to the increasing hordes of consumers.

The millions of our cities cannot much longer depend upon a semi-bankrupt industry for their daily sustenance. Co-operation in production, marketing and transportation will complete the rehabilitation of this industry. The preparation of this new type of farmers in schools like this and in the higher colleges will continue to be the highest contribution to a happy and enlightened citizenship.

It is the duty of the management and faculty and of patriotic men and women of means to help the School meet these new requirements.

Our own students henceforth must have training in farming mechanics and engineering. Proper equipment and expert teachers are necessary to carry this out.

We further recommend the addition of selective courses in tree, landscape and shrubbery gardening to meet the coming demands of our cities and parks.

Our Educational Committee has given much thought to enlarging and modernizing our curriculum by means of a high-class faculty.

The Board of Directors, too, thanks to the efficient work of Philip Sterling, Esq., and his associates, has been reorganized during the year and now numbers 24 on the active list. The new members elected are: Mr. Maurice Fels, Mr. Horace T. Fleisher, Rabbi Wm. H. Fineshriber, Mr. Frederick P. Gruenberg, Mr. Jos. H. Hagedorn, Mr. Louis A. Hirsch, Mr. Charles Kline, Mr. Grant Wright and Mr. James Work.

The other part of this Committee's work, viz.: A recommendation of an experienced leader to take the permanent presidency of the School, is yet incomplete.

As one who loves this School and this cause like unto his own flesh and blood, I urge most strongly that just now when the work is ripe for a rich harvest, a man be selected, able and willing to dedicate himself solely to the School.

I pledge to him the same loyalty and help that has so generously been given to me by my associates.

After the heavy sorrows and losses that came to us during the preceding year I had hoped that the Grim Reaper would exact no toll during the past year. Suddenly, and in the very midst of his activities as Chairman of the Domestic Committee, our beloved friend and associate, Mr. Eugene M. Stern, was taken from us. In his death The National Farm School has lost one of its best friends and champions.

We also record with sorrow the death of two of our National Board members, Mr. A. Hirshheimer, of La Grosse, Wis., and Mr. J. E. Oppenheimer, of Butte, Mont.

Mr. Louis A. Hirsch, who succeeds Mr. Stern as Chairman of the Domestic Committee, is rendering efficient service in the handling of the internal problems, and to him and his Committee, as well as to Mr. J. L. Campbell, Superintendent of Supplies, our thanks are due for the care and attention given to the economical purchase of all supplies.

To the members of our Ladies Auxiliary Board, to our ever-faithful secretary, Miss Elsie Bellefield, and her assistants, and to all of the men and women of the staff, at the School and office we extend our sincere thanks for that loyalty and efficiency which made this bright record of accomplishment from harvest time to harvest time possible.

H. B. HIRSH, *President.*

Resolutions on the Death of

EUGENE M. STERN

Passed at a Meeting of the Board of The National Farm School April 9, 1924

The members of the Board of Trustees of The National Farm School desire to record their sorrow at the announcement of the sudden death of their friend and colleague,

EUGENE M. STERN,

their deep sympathy with the members of his family, and their high appreciation of his worth as a man.

Eugene M. Stern gave unstintedly of his time and energy to the development of our School, and by his power of apt suggestion and expression rendered unusual service. His sympathies in behalf of every good cause were stimulated to generous action, and his love for his fellow-men was an outstanding characteristic.

The members of the Board of The National Farm School pay reverent tribute to him as friend and fellow-member.

Loyal to his family and friends, yet never forgetting the larger duty to the community—such was Eugene M. Stern.

To those of his home circle where this sudden loss has fallen with overwhelming force, to the wide circle of friends, in which we include every member of our Board, the faculty and student body of our School, we here express our deepest sympathy.

TWENTY-THIRD ANNUAL GRADUATION

February 22, 1924

Very interesting exercises marked the twenty-third annual graduation exercises of The National Farm School, when diplomas were awarded to the young men who composed the senior class.

Mr. Harry B. Hirsh, Acting President, presided over the exercises which were held at the School on Washington's Birthday. After an invocation delivered by Rev. Wm. H. Boswell, Mr. Hirsh delivered an introductory address, reviewing the history of the School during the past year. He recalled the catastrophe suffered by the School in the fire which destroyed Pioneer Hall, which hastened that greater catastrophe, the death of the founder and leader of this great work, the Rev. Dr. Joseph Krauskopf. He stated, however, that out of the ashes of the past a better and greater Farm School is gradually arising, the first tangible evidence of which is the new Rosetta M. Ulman Dormitories, erected through the benefaction of the late Rosetta M. Ulman; that the loss of the beloved founder has imposed upon the directorate, upon the faculty, the students and the alumni a greater consciousness of the new obligations resting upon them, with the result that the School is functioning better than it has ever done before. He then introduced the principal speaker of the occasion, Dr. R. L. Watts, Dean of the Pennsylvania State Agricultural College.

Dr. Watts, in a very illuminating address, traced the present-day agricultural situation, his subject being "The Challenge of Agriculture." The keynote of his address was that the trained agriculturist, who combines his practical knowledge with scientific application, must make a success on the farm. He then pictured the farm as the ideal home and environment in which to rear a family, pointing out the contentment, the cultural influences which permeate the farm family group.

Brief addresses were made by Dr. Louis Nusbaum, Associate Superintendent of the Public Schools of Philadelphia; Mr. Joseph H. Hagedorn, President of Congregation Keneseth Israel, and Mr. Grant Wright, President and Editor of *The Eastern Dealer*.

The salutatory was delivered by Burton L. Klein, and the valedictory by Irving A. Victor. "Presentation of the Hoe," a symbolic ceremony in which the outgoing senior class imposes

upon the incoming senior class the upholding of the traditions of the School, was made by Samuel Cahan.

Dr. Bernhard Ostrolenk, Director of the School, awarded the diplomas to the graduates:

Jos. Berman, Philadelphia
Nathan Brewer, Chicago, Ill.
Samuel Cahan, Philadelphia
Ellsbury Elliott, Hebron, Md.
Francis W. Entwistle, Philadelphia
Norman Filgut, Chicago, Ill.
Louis C. Goldich, Philadelphia
Burton L. Klein, Cleveland
Sidney J. Michaels, Uniontown, Pa.
Morris Ostrolenk, Gloversville, N. Y.
Samuel Packer, Philadelphia
Jos. W. Stringer, Philadelphia
Irving A. Victor, Detroit, Mich.

Post-graduate certificates for one additional year were awarded to Charles Eisler, New York; Jacob Rabinowitz, New York, and Wm. Van Looy, Sicklerville, N. J. Samuel Cahan was awarded the Myer Rothstein Memorial Prize, a handsome gold watch offered by Mrs. Eda Rothstein, of Johnstown, Pa., in memory of her husband. Louis Goldich was awarded the Pennsylvania State College Scholarship, and Ellsbury Elliott was the winner of the Veterinary Set offered by Dr. Wesley Massinger.

FOUNDER'S DAY

Sunday, June 1, 1924

Founder's Day, which was observed at The National Farm School on Sunday, June 1, 1924, is to be an annual event in the future, to take the place of the annual Spring exercises, which had been held at the School consecutively for the past twenty-seven years.

The exercises this year had a fourfold purpose, namely: The observance of the anniversary of the death day of the founder, Dr. Joseph Krauskopf; the cornerstone laying of the Library, in his memory; the dedication of the beautiful new Rosetta M. Ulman Dormitories; and the Consecration of Memorial and Festive Trees.

The morning program, which took place in Louchheim Auditorium, was opened with an invocation by Rabbi Abraham J. Feldman. Hon. John M. Patterson, of Philadelphia, who presided, was presented to the audience by Mr. Harry B. Hirsh, Acting President of the School, who, in a brief introductory, welcomed the friends of the institution, and rejoiced them with a

recounting of the wonderful progress being made by the School in its educational, physical and financial development.

Judge Patterson, in taking the gavel, read the names of those who were to participate in the program, and introduced Dr. John M. Thomas, President of the Pennsylvania State College, as the first speaker.

Dr. Thomas gave an illuminating talk on the educational field as it concerns farming. He brought an expression of good-will from the trustees and faculty of State College. He stated that "the need of agricultural training is too apt to be forgotten. There is a fundamental need of an intelligent agriculture." He said further: "By no possibility can there be a conflict between the State College and Farm School, because each has a different responsibility. The State College does not attempt, as does the Farm School, primarily, to train in the direct cultivation of the soil. It also requires its students to be high school graduates before they can enter, while the Farm School takes boys who have not so far advanced."

The Rosetta M. Ulman Dormitory was then dedicated with appropriate exercises. Mr. Herbert D. Allman, Chairman of the Building Committee, reported on the erection and completion of the building, after which Mr. Malcolm M. Ulman, of Harrisburg, delivered the dedicatory address, and presented the building to the School on behalf of the Ulman family. Mr. Hirsh then formally accepted the building on behalf of the School.

During the noon recess the guests were tendered a luncheon in Lasker Hall, at which Mr. Joseph H. Hagedorn, on behalf of his fellow Board members, paid a fitting tribute to Mr. Herbert D. Allman, in recognition of his untiring labors as Chairman of the Building Committee, and as volunteer Executive Director of the School.

Brief impromptu addresses were made by Mr. Abraham Erlanger, Executor of the Estate of Rosetta M. Ulman; by Mr. James A. Pratt, President of Williamson Trade School; and by Miss Harriet Sartain, Dean of the Women's School of Design.

The afternoon program was opened with impressive services incident to the laying of the cornerstone of the Krauskopf Memorial Library Building. The ceremonies were in charge of Mr. Allman, Chairman of the Krauskopf Memorial Committee, and were opened with a beautiful prayer of consecration delivered by Rabbi Feldman. Mr. Harry B. Hirsh, Rev. Wm. Boswell, of the faculty, Dr. Ostrolenk, Director, and Mr. Grant Wright in brief

addresses paid their meed of respect to the sainted founder of the School, and all testified to the fitness of erecting this cultural building to his memory. A letter of appreciation was read from Mrs. Krauskopf, who was unable to be present on account of ill health.

Mr. Allman, in an inspirational tribute to Dr. Krauskopf, stated that in laying this cornerstone the School is also laying the cornerstone of the broader, cultural and educational upbuilding of the institution. He stated that "the building which will soon rise upon this site will be a lasting monument to the vision of Dr. Krauskopf; to his energy, to his love of humanity, so that those who come after us may lack no testimony of the high regard in which he was held by us, who are proud to be known as his friends and associates in his blessed work."

Memorial and Festive Trees planted on the School grounds during the year, in memory of departed friends of the School and in honor of joyous occasions, were then consecrated. Dr. Louis Nusbaum, of Philadelphia, delivering the address of consecration, said in part:

"The planting of trees, as an act of devotion and of reverence, may be traced back to ancient times. History and legend point to many instances of tree-planting as a widespread custom among certain peoples. It is said that the Aztec Indians planted a tree whenever a child was born."

Special tributes were then paid to the late Eugene M. Stern by James W. Laws, Esq.; to the Rev. Dr. Henry Berkowitz by Philip Sterling, Esq.; to Edward Stern by Mr. Samuel S. Fleisher; to Rev. Wm. Armhold and Rev. Alexander Gross by Leon J. Obermayer, Esq.

The names of those for whom Memorial and Festive Trees were consecrated at these exercises are given in full on pages 12 and 13 of this book.

FLOWER AND FRUIT FUND

Extract from the Last Will and Message of Dr. Krauskopf

"All moneys and investments remaining after the death of my wife, I desire turned over to the Board of Directors of The National Farm School, to be set aside by them as a special fund to be known as 'The Flower and Fruit Fund,' the interest of which is to be devoted to the distribution of flowers and fruits to the needy sick, irrespective of race, creed and color. The proper distribution of flowers and fruits shall be in charge of the Ladies' Auxiliary of The National Farm School and of the Sisterhood of Congregation Keneseth Israel.

"I sincerely hope that this fund may become the nucleus of a much larger one, that to it may be devoted sums which, at the present time are invested in floral tributes on coffins and graves where they are of no benefit to the dead, and the living would be more lastingly comforted. The bereaved, I feel sure, will appreciate the affection and sentiment far better when learning of the contributions made to the Flower and Fruit Fund by friendly sympathizers, in commemoration of the dear departed.

"I trust that the Flower and Fruit Fund may some day become large enough to make possible the purchase of additional land by the Farm School, and setting such land aside for the special benefit of the debilitated poor, for a week's or fortnight's, recreation by them during the summer, or by working said land by such of those who may have a chance to restore their lost health by outdoor work."

CONTRIBUTIONS TO THE FLOWER AND FRUIT FUND HAVE BEEN RECEIVED FROM:

Herbert D. Allman, Philadelphia, in memory of sister, Mrs. Ben Bacharach.

TWENTY-SEVENTH ANNUAL HARVEST PILGRIMAGE

Sunday, October 12, 1924

A large gathering of friends of The National Farm School took advantage of the perfect autumn day on Sunday, October 12, 1924, to participate in the Annual Succoth Harvest Pilgrimage on the grounds of the Institution.

The exercises, held in the Louchheim Auditorium, which was beautifully decorated with the products of the fields raised by the students, were opened with a prayer by Rabbi Wm. H. Fineshriber, of Keneseth Israel Temple, Philadelphia.

Mr. Grant Wright, of Philadelphia, Chairman of the Program Committee, presided. In his introductory remarks, he said, in part:

"This Harvest Festival of The National Farm School was originated by the founder of the School, Dr. Joseph Krauskopf, who in the broadness of his vision set aside a day each year for the annual coming together of the men who govern the affairs of the Institution, and for the student body, the faculty and friends of the School in general.

"It has been my pleasure to witness the causes that make this day of great importance. The student body have well performed their tasks. They prepared the ground, sowed the seed, and reaped the harvest from the broad fields of the School farms. Their tasks were at all times cheerfully performed, and their

attention to instruction has resulted in a bountiful harvest of record crops, a real credit to agriculturists."

Mr. Herbert D. Allman, Chairman of the Building Committee and volunteer Executive Director of the School, extended greetings on behalf of the President, Mr. Harry B. Hirsh, who was absent in Europe, and presented the President's message (printed in full on pp. 5-11 of this book).

Mr. Allman said:

"Before presenting the report of the Acting President, Mr. Harry B. Hirsh, I ask your kind indulgence in order to say a few words on my own behalf, as Chairman of the Building Committee. A lengthy report of the work that has been done is not necessary. The improvements which you see at every hand, and which have been made possible by your generous gifts, speak for themselves. I am sure that our beloved founder, Dr. Joseph Krauskopf, were he here today, would say that his work has not been in vain, that his labors are bearing fruit, that his dreams and visions for the School are taking tangible form, that we, his friends, have picked up the torch of this fallen leader, and are keeping it erect and burning ever more brightly.

"I wish to say to you, therefore, merely a word concerning the Joseph Krauskopf Memorial Library. It was our hope and intention when we laid the cornerstone of this beautiful building last June, to dedicate it at these exercises today. A number of finishing details, however, are still to be completed and the books and art objects from Dr. Krauskopf's library are still to be put in place. These have been delayed somewhat by reason of the fact that Mrs. Krauskopf, who is so earnestly co-operating with us, is carefully going over the original library, recataloging and rebinding many of the books and manuscripts in her desire to turn the library over to the School in a perfect condition. Taking these matters into consideration, and from the further fact that it was deemed more fitting and timely to dedicate this memorial at the occasion of our Second Founder's Day, we decided to postpone the dedication until next spring. When this beautiful building is completed, the two libraries, our own School library and that of Dr. Krauskopf, will make a memorial that will be a valuable asset to the School and to our students, and should be utilized to the fullest extent by the people from the surrounding country as well.

"Our Acting President, Mr. Harry B. Hirsh, who through his capacity for work and leadership, has guided the destinies of this School with a steady hand and clear vision for the past few years,

is absent in Europe on a well-earned vacation. It is for that reason that I have the honor of greeting the friends of the School here assembled in his stead, and to me has been assigned the privileges of reading a message from him dated at Paris, September 18, 1924."

Dr. James A. Pratt, head of the Williamson Trade School, eulogized the work of the founder, and declared that the farmer of the future must be trained on lines as laid out by The National Farm School, and that the future food supply of the nation depends upon the technically trained agriculturist. He then addressed himself to the students of the School, impressing upon them the value of having a purpose in life, and working at it consistently. He based his talk on the following:

"One day in huckleberry time when little Johnny Fales
And half a dozen other boys had started with their pails
To pick some berries, Johnny's Pa in talking with him said
That he could tell him how to pick so's he'd come out ahead.

" 'First find your bush!' said Johnny's Pa, 'and then stick to it till
You've picked it clean. Let those go chasing all about who will
In search of better bushes; but it's picking tells my son—
To look at fifty bushes, doesn't count like picking one."

Dr. Bernhard Ostrolenk, Director, then made his annual report, published on pp. 30-33 of this book.

Election of officers and members of the Board ensued, after which the exercises were concluded with the pronouncing of benediction by Rabbi Abraham J. Feldman.

Following a luncheon in Lasker Hall, opportunity was afforded the visitors to inspect the fields and buildings of the School.

REPORT OF THE DIRECTOR

Bernhard Ostrolenk, Ph. D.

The annual year of The National Farm School fittingly coincides with its harvest year. As we inventory the yield from the farms we are simultaneously led to inventory the educational progress of the School, and as we take satisfaction in the products of our labors in the fields, we may also rejoice in the products of our efforts in the schoolroom. In fact, it is difficult in an institution like ours to separate the two. The bounteous harvests of which I would like to tell you are the results of the educational policies of the School. The cultivation of almost a thousand acres of land, the care of over one hundred and fifty head of cattle, forty head of horses, many thousand hens, acres of orchards of peaches, apples, small fruit and the multitude of garden crops that have been grown, has all been accomplished by an intelligently directed student body. This accomplishment in itself shows that the students have labored diligently, honestly and successfully. This achievement alone shows that they have received in this performance an education in agriculture.

As we enter the new school and farm year, the maintenance of this large laboratory for agricultural instruction is one of proud achievement to which we may look back. I recognize that all students who come to The National Farm School can come for no other purpose than a sincere desire to follow an agricultural calling. There is nothing else that can attract young men here or that can induce them to invest such precious years of their youth—an investment far heavier than is even made by the School, which only invests money. The full schedule, the constant attention day in and day out on holidays, Sundays and work days which our stock and farms require, means a sacrifice on the part of the students which they are seldom called upon to give in any other occupation. Our students must be cognizant of the fact that the rewards of an agricultural vocation while satisfactory are not munificent, as compared with scores of other occupations which require similar training and similar investment. The real reward is largely psychic. It consists in satisfactions of health, of outdoor life, of independence, of close family life, of a variety of daily occupations, and of interest in living things. Such a school as ours, such a life as we live and such prospect as we offer must

attract only the unusual boy. And we have an unusual group of students, a group who have the poetry of the outdoors in their souls.

As I take pride in awarding today prizes to those students who have received the largest number of merits during the past six months, I do so in the knowledge that working for marks or working for credits or merits is not a characteristic of our students, that every student takes pride in the work he does because of the joy in achievement, the satisfaction of creating things. Any work done in any other spirit is fundamentally unsound, and I trust will always be contrary to the spirit of our School. I take pleasure to announce that the following students have received a merit for each month since March 1st:

Seniors

David Brown, Philadelphia
Warren Rinenberg, Philadelphia
Harry Rabinowitz, New York City
Martin E. Cohein, Philadelphia
Samuel Rosenau, Pensacola, Florida

Juniors

Moses Grossfield, New York City
Joseph Kleinfeld, Rockaway Beach, N. Y.
Harold Peskin, New York City
Morris Davidowitz, Brooklyn, N. Y.
Matthew Snyder, Atlantic City, N. J.
Philip Levinson, Albany, N. Y.
Lucius Levitsky, Montreal, Canada
Louis Rummell, Buffalo, N. Y.
Hyman Levin, Harrisburg, Pa.
Clifton Boremus, Hillside, N. J.

Freshmen

Edmond Etesse, Allendale, N. J.
Everett Wilson, Merchantville, N. J.

In the last analysis the work of the School is a reflection of the activities of the faculty. When the School is successful, when the students are getting a sound agricultural education, when the farms are fully maintained, it is because an able and conscientious faculty is painstakingly at work. They must take the credit for all that is done. They must assume the responsibility for any failures of the School. They are your custodians, and they must account to you for their work. In the final analysis it is they, and they only, who should be invested with the full responsibility of the School. I take pride today to say without smugness and without self-laudation that our faculty can give a satisfactory account of their stewardship. I have been assisted during the past year by a loyal, faithful and able group of men. They have been teachers in the real sense of the word. Their task is no small one. Teaching, as often interpreted, as merely meaning the imparting of information, is relatively easy. However, to be selective in that information, to be discriminate in the methods in which it is

given and above all to be able to do yourself what you are teaching, makes a respected teacher. It is not so difficult a thing to tell boys how to grow peaches; it is quite another to grow them. Our faculty are teachers in the sense that they not only can tell how to do it, but in our one-thousand-acre laboratory must show that they can do it. I extend my thanks to my colleagues for their contribution in turning out the high type of men of our School. During the year Mr. D. M. Purmell received a much-merited promotion from Instructor in Horticulture to Superintendent in Horticulture. A new position of librarian was created, to which position Miss Rebecca Churchman was appointed. Another new position was created as Director of Athletics, to which position Mr. John G. Rogers was appointed. Mr. Walter J. Groman was appointed instructor in farm machinery.

We have had an additional number of the alumni of the School purchase their own farms during the past year. There is satisfactory progress along this line, and I am pleased to say that in most instances the farm purchases and the farm management on which these purchases are made are on a sound basis. We have difficulty in restraining the enthusiasm of our younger graduates. The agricultural situation throughout the United States has been particularly trying in connection with the wheat farmers, and the recent rise in the price of wheat, due to a crop failure in Canada and Russia is liable to have again disastrous effects upon the American wheat farmers should they fail to interpret the trend of wheat purchases. Europe wants cheap wheat; and cheap wheat cannot be produced any more on the high-priced lands of our great northwest. Australia, South America and Russia will be for many years the granaries of wheat for the bread-hungry people of Europe. The agriculture in the United States must make new turns. The graduates of The National Farm School must be persuaded to go into such farming as will make long-time profits possible rather than depend upon the ephemeral crop failures of other countries for their profits.

An increasing number of our graduates are now in the fields of agricultural education, and are preparing themselves at colleges for agricultural leadership. The success of many of the older graduates along these lines has been a stimulus to the younger men who have been seeking education in our colleges along lines of agricultural economics, farm management and rural sociology.

The Chairman of the Building Committee will no doubt report to you about the many improvements in buildings that you see around you at the School today. I would not like to pass this subject, however, without giving my commendation and thanks to Mr. Allman for the painstaking care that he has brought to this work and the wisdom with which he has managed.

The School farm itself is divided into seven farms. All of them in splendid agricultural condition, four of them managed by post-graduates of our School, the management being a credit to the education they have received here. The greenhouses, the poultry, the apple and peach orchards, the small fruit orchards, the vegetable gardens, the nurseries all mirror the able direction given them by the men in charge.

I can conscientiously say that there has not been a year, since my connection with the School, that has seen so much real progress in contributions to agricultural education as has been made at The National Farm School during the past year. The spirit of the founder of the School has hovered over our work in a real sense. We have been daily inspired by the spectacle of our youth going forth every morning to their tasks singing—tasks that took them to fields and farms, to woods and meadows, working with cows, horses and plants. There has not been a time in the history of the country when the need for the kind of agricultural education that we give has been greater. The call for young men trained as we train them has been pressing, and, on the other hand, the call for the kind of training that we give is increasingly gaining the attention of agricultural leaders throughout the country. The progress of the School must not blind us to the many problems for which we need sympathetic understanding and helpful friends.

REPORT OF THE LADIES' BOARD

Mrs. Bernard Kohn, Chairwoman

The School has been visited regularly by the Women's Board during the year, and the household, under the supervision of Mr. Campbell and Mr. and Mrs. Benson, has progressed smoothly.

I am happy to say that the reorganization of the Women's Board has at last been completed. Three regular visitors have been appointed to the Men's Board, with equal voting power as the men. Three members are now serving on the Education, Student Contact, Publicity and Budget Committees respectively, and six on the Domestic Committee. We unanimously feel this will lead to greater efficiency and co-operation, and hope that it will prove of value to both the men and women.

Again, we wish to express our thanks and appreciation to the various Sisterhoods, sections of the Council of Jewish Women and the Ladies' Aid Societies, who in the matter of linens and household articles, have so generously contributed to the needs of The National Farm School. A list of the organizations which assisted

THE NATIONAL FARM SCHOOL

Executive Office, 1101 Market Street—Room 809, Philadelphia.

Membership of The National Farm School

I, the undersigned, being in sympathy with the object of *"The National Farm School"*—the training of lads in the practice and science of agriculture, for agricultural callings—do hereby agree to subscribe as one of the Maintainers of the institution, the dues of a LIFE MEMBER ($100.00), PATRON ($25.00), SUPPORTER ($5.00), FRIEND ($50.00), MEMBER ($10.00).

Name .....

Address .....

Date .....

NOTE.—Underscore the class of membership you wish to join. Life Membership calls for but one (the first) payment. Make check payable to THE NATIONAL FARM SCHOOL.

Form of Legacy to The National Farm School

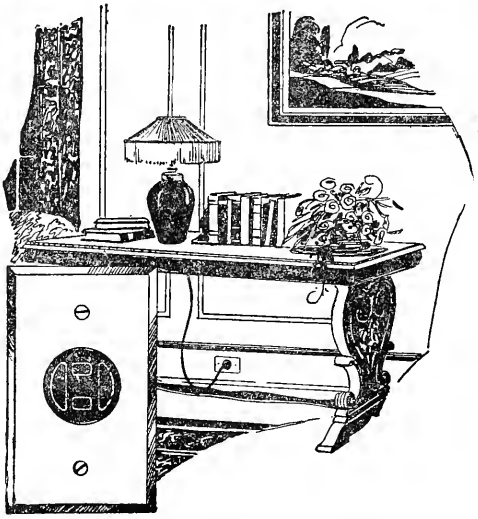
"I give and bequeath unto The National Farm School, Bucks County, Pa., near Doylestown, the sum of.....dollars free from all taxes to be paid to the Treasurer, for the time being, for the use of the institution."

Form of Devise

ON REAL ESTATE OR GROUND RENT

"I give and devise unto The National Farm School, Bucks County, Pa., near Doylestown (here describe the property or ground rent), together with the appurtenances, in fee simple, and all policies of insurance covering said premises, whether fire, title or otherwise, free from all taxes."

How Electricity Helps to Make "BETTER HOMES"



BEAUTY! The better home is beautiful. Not richly furnished perhaps, but softly lighted with colorful lamps and harmonious fixtures. The familiar library table lamp, with its hospitable, inviting radiance, is the veritable heart of the home.

CONVENIENCE! The better home is wired for the convenient use of electricity. The wall plate illustrated is called a "convenience outlet." It will provide current to a number of lamps and appliances. At least one of these "convenience outlets" should be placed in every room.

HOUSEKEEPING ASSISTANCE! All work and no leisure makes a tired, dull wife! And that's ruinous to better homes. From the dishwasher to the automatic door-switch, electric servants can do 75% of the housework. Buy one "servant" at a time and you'll soon have a complete electric home.

JUST CAMOUFLAGE

Paint Can Hide a Multitude of Defects, But It Soon Wears Off

A floor is like a woman's face—if it is full of blemishes it needs to be hidden under a coat of paint. But if it is naturally beautiful, it needs no camouflaging. However, the best of paint soon wears off, whether it be on floor or face, and then the underlying blemishes stand out more prominently than ever.

But a floor has this advantage—if it is ugly and unsightly, you can have it ripped up and replaced with a beautiful, sanitary, durable and easily cleaned hardwood floor. It will improve the appearance of your home 100 per cent. and the cost is moderate if the work is done by

Noted Scientists

Approve of Gas Lighting

Scientific experiments by noted investigators prove that gas lighting improves the air for breathing purposes by helping ventilation, destroying germs and adding necessary moisture.

Scientists also know that modern gas light is best for the eyes, because it is so soft, mellow, free from glare and harmful color rays.

The Bureau of Standards, at Washington, refers in detail to the economy and quality of gas mantle light in a report entitled "Measurements for the Household."

See the display of modern gas lights at any of our Philadelphia Showrooms.

The magnificent Earle Theatre is a RAU accomplishment. The beautiful and imposing Franklin Trust Building is RAU finished on all its interior surfaces.

The RAU imprint of excellence is on many of Philadelphia's largest and finest structures.

The same organization called on to discharge these large operations is available to you for your home and office, your factory and store.

Estimates do not obligate you and are surprisingly low. Won't you call upon us? There is no cost or obligation for inspection, specification or bid.
